RE46,971: Flexible

Brindle is defined as : a brownish or tawny color of animal fur, with streaks of other color. It is fairly common in breeds, such as Boxers, but incredibly rare in pure bred Labs.

Brindle Labradors are rare and unique among Labs. Despite their rarity, they possess the same lovable, intelligent, and friendly characteristics as their solid-colored counterparts.

ROAD WIDENER REDUCES OPERATING COSTS You'll operate more efficiently with the Road Widener skid steer attachment. It's the most flexible and portable road widener on the market, giving

A Brindle Labrador is as much a Labrador as its black, yellow, or chocolate cousins. So you can flaunt your Brindle Lab's stripes while still bragging about its purebred status.
