Our solution is an all-in-one package: Battery packs, charge controller, BMS, EMS, and PcS, all integrated into a single unit with a highly efficient three-level topology to optimize system efficiency.

ESG offers a variety of customized energy storage cabinets, including models such as 215kWh, 500kWh, and 2MWh, specifically designed for factories, farms, and large enterprises. No matter what ...

The iCON 100kW 215kWh Battery Storage System is a fully integrated, on or off grid battery solution that has liquid cooled battery storage (215kWh), inverter (100kW), temperature control and fire safety

Specifically, this system combines a high-capacity 215kWh LFP battery array with a powerful 100kW hybrid inverter. Because businesses face rising energy costs, this containerized cabinet provides a

The 215 kWh Energy Storage Cabinet integrates seamlessly into industrial & commercial energy storage, distributed power stations, EV charging stations, and microgrids to deliver reliable peak

It is an one-stop integration system and consist of battery module, PCS, PV controler (MPPT) (optional), control system, fire control system, temperature control system and monitoring system.

215kWh LiFePO4 Solar Battery Storage Cabinet is a revolutionary energy storage system designed especially for meeting the growing needs of commercial and industrial business houses.

This all-in-one outdoor energy storage cabinet provides a high-efficiency and fully integrated solution for commercial and small-industrial applications. Designed for stable backup power and solar

High-performance battery cell, life cycles >6000; Perfect protection mechanism: DC backconnection protection, insulation detection, direct surge protection, DC short-circuitprotection and AC surge

New energy battery cabinet 215kWh

The system consists of one set of 215kwh battery unit, one set of 100kw PCS with liquid cooling system and gas fire protection system, which improves product efficiency and working stability.
